

FILM BANDAGE

A transparent film bandage designed to protect cesarean incisions while maintaining a moist healing environment.

✓ **GREATER VISIBILITY**

Easily monitor the incision site without removing the transparent dressing, reducing contamination risk

✓ **THE IDEAL HEALING ENVIRONMENT**

Support autolytic debridement and faster healing with a moist wound environment

✓ **WATERPROOF BACTERIAL BARRIER**

Designed to protect against moisture and bacteria, enabling safe showering without compromising the healing environment

✓ **BREATHABLE AND FLEXIBLE**

Ultra-thin and highly breathable film provides comfort to patients

Indication

The Recipro, Inc. CeaLogic Film Bandage is intended to cover and protect wounds as a secondary dressing.

The CeaLogic Film Bandage brings advanced protection, visibility, and breathability to cesarean wound care.

PRODUCT HIGHLIGHTS

ELASTIC AND CONFORMABLE

Stretchy material conforms to body contours for greater patient comfort.

EXTENDED COVERAGE

10 x 30 cm film provides full coverage for longer cesarean incisions.

LASTING RELIABILITY

Film can hold for up to 5+ days in moist healing applications when applied to dry dermal surfaces.
